

The Voice of Pope Francis:

Creation is an act of love.

God's love is the moving force in all created things.

Other creatures reveal God.

A mountain, a desert, a tree, a rose... each is a revelation of God... a manifestation of God.

The entire universe speaks of God's love... God's boundless affection for us.

To touch soil, water, mountains is to feel the caress of God.

Contemplative activity

Teaching and parenting are two of the noblest vocations, and are at the cutting edge of "mission" activity.

Why?
